Education

PES Modern College of Engineering

Bachelor of Technology in Computer Engineering; CGPA: 7.95/10

Pune, Maharashtra

Sept. 2024 – May 2028

Projects

EASE-IT – AI-Powered Health Assistant | JavaScript, Node.js, MongoDB, Gemini API, JWT, Vercel

- Built a full-stack web application enabling users to scan food labels via OCR (Tesseract.js) and receive real-time ingredient safety analysis
- Engineered REST APIs with Node.js and MongoDB to store and retrieve user health profiles and scan history
- Integrated Google Gemini API to detect and flag unsafe ingredients against user-defined health conditions, automating a manual label-reading process
- Implemented JWT-based authentication to secure user sessions and protect personal health data
- Deployed production build to Vercel and resolved cross-module frontend bugs, improving load reliability

VoteWise – AI-Powered Civic Guidance System | JavaScript, Node.js, Gemini API, Docker, Google Cloud Run

- Designed and built an end-to-end voter guidance web app as sole developer, helping first-time voters navigate eligibility, required documents, and registration deadlines
- Integrated Gemini API to translate government voting procedures into plain-language, step-by-step guidance for non-technical users
- Containerized the application with Docker and deployed on Google Cloud Run for scalable, cloud-native delivery
- Achieved 100% automated test pass rate (61/61 tests) while keeping frontend bundle size under 1MB

Certifications & Training

Microsoft Learn – Enhance Productivity with Prebuilt Microsoft 365 Copilot Agents (All module assessments passed)

Microsoft Learn – Explore Prebuilt Microsoft 365 Copilot Agents (Module assessment passed)

Technical Skills

Languages: Java, JavaScript, Python, C/C++, SQL

Frontend: React, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Databases: MongoDB, MySQL

Cloud & DevOps: Docker, Google Cloud Run, Vercel, Git/GitHub

Other Tools: Gemini API, Tesseract.js (OCR), Google Maps API, Pandas, NumPy, Matplotlib
